THE COST OF LIVING

We do not believe that the high cost of living is due to the Underwood Tariff: A little reflection assures us that the vast majority of the commodities which have advanced most in price of late are those which do not need protection for the reason that their manufacturers have little or no competition abroad.

For example, clothing worn by ordinary people is much cheaper than it was four years ago, whereas beef is infinitely more dear. The prices of milk and bread are now skyrocketing. Think for youself and you will find many similar examples. :

The truth is that somewhere dies lation of foodstuffs and all the other pital two years ago, and that she staples of life.
